

## **Product Data Sheet:** Phospho-FAK (Tyr397) Rabbit Polyclonal Antibody

Cat. No: ABP10415

Conjugate: Unconjugated

Size: 100 ug Clone: **POLY Concentration:** 1 mg/ml Host: Rabbit

Isotype: IqG

The antiserum was produced against synthesized peptide derived from human Immunogen:

FAK around the phosphorylation site of Tyr397. AA range:363-412.

**Reactivity:** Human, Rat, Mouse

Western Blot: 1:500 - 1:2000 Immunohistochemistry: 1:100 - 1:300 **Applications:** 

Immunofluorescence: 1:50 - 1:200 ELISA: 1:5000.

**Molecular Weight:** 

The antibody was affinity-purified from rabbit antiserum by affinity-**Purification:** 

chromatography using epitope-specific immunogen.

PTK2; FAK; FAK1; Focal adhesion kinase 1; FADK 1; Focal adhesion kinase-related **Synonyms:** 

nonkinase; FRNK; Protein phosphatase 1 regulatory subunit 71; PPP1R71; Protein-

tyrosine kinase 2; p125FAK; pp125FAK

Protein tyrosine kinase 2(PTK2) Homo sapiens This gene encodes a cytoplasmic protein tyrosine kinase which is found concentrated in the focal adhesions that

form between cells growing in the

presence of extracellular matrix constituents. The encoded protein is a member

of the FAK subfamily of protein tyrosine kinases but lacks significant sequence

**Background:** similarity to kinases from other

subfamilies. Activation of this gene may be an important early step in cell growth and intracellular signal transduction pathways triggered in response to certain neural peptides or to cell interactions with the extracellular matrix. Several transcript variants encoding different isoforms have been found for this gene, but

the full-length natures of only four of them have been determined.

Form: liquid

**Buffer:** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Storage: Store at -20°C. Avoid repeated freeze-thaw cycles.

## For Research use only **IMMUNOLOGICAL SCIENCES**
