

Cat. No:	AB-82322
Size:	100 ul
Clone:	Poly
Concentration:	1mg/ml
Host:	Rb
Isotype:	IgG
Immunogen:	Peptide derived from the C-terminal sequence of human AKT1 protein
Reactivity:	Hu, Ms, Rt
Applications:	Western blotting -1:1,000 - ELISA - 1:100,000 - 1:200,000
Purification:	Purified
Background:	Major clone of IgG obtained from the crude rabbit antiserum by in vitro cloning technology, detecting the Akt1 protein. This antibody cross-reacts with the Akt2 and Akt3 proteins at the lower signal intensity.
Form:	Liquid
Buffer:	20 mM Tris-HCl, pH 8.0
Storage:	10 µl aliquots at -20 °C.
