

Product Data Sheet: CD81

 Cat. No:
 AB-83878

 Size:
 100μg

 Clone:
 POLY

Concentration: 1mg/ml
Host: Rb

Isotype: IgG

Immunogen: Synthesized peptide derived from human CD81

Reactivity: Ms

Applications: Western Blot: 1:500-1:2000 Immunofluorescence: 1:50-200

Molecular Weight: 23kDa

Purification: The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using a epitope-specific immunogen.

Anti-Cd81 Antigen antibody annti-26 Kda Cell Surface Protein Tapa-1 antibody,
Anti-Target Of The Antiproliferative Antibody 1 antibody, Anti-Tetraspanin-28

antibody, Anti-Tspan-28 antibody, Anti-Cd Antigen Cd81 antibody, Anti-CD81

antibody, Anti-TAPA1 antibody Anti-TSPAN28 antibody.

The protein encoded by this gene is a member of the transmembrane 4 superfamily, also known as the tetraspanin family. Most of these members are cell-surface proteins that are characterized by the presence of four hydrophobic domains. The proteins mediate signal transduction events that play a role in the regulation of cell development, activation, growth and motility. This encoded protein is a cell surface glycoprotein that is known to complex with integrins. This

Background: protein is a cell surface grycoprotein that is known to complex with in protein appears to promote muscle cell fusion and support myotube

maintenance. Also it may be involved in signal transduction. This gene is localized

in the tumor-suppressor gene region and thus it is a candidate gene for malignancies. Two transcript variants encoding different isoforms have been found for this gene. Specificity: CD81 polyclonal antibody detects endogenous

levels of CD81 protein.

Form: Liquid

Storage: Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

At +4°C for short term. At -20°C for longer term. Avoid freeze / thaw cycles.

For Research use only IMMUNOLOGICAL SCIENCES
