**Cat. No:** AB-E5927

Conjugate: Unconjugated

Size: 100 ug
Clone: POLY
Concentration: 1mg/ml
Host: Rabbit
Isotype: IgG

Immunogen: The antiserum was produced against synthesized peptide derived from human

Collagen III. AA range:81-130

Reactivity: Human; Mouse; Rat

**Applications:** Immunohistochemistry: 1/100 - 1/300 Immunofluorescence: 1/200 - 1/1000

**Purification:** The antibody was affinity-purified from rabbit antiserum by affinity-chromatography

using epitope-specific immunogen.

**Synonyms:** COL3A1; Collagen alpha-1(III) chain

collagen type III alpha 1 chain(COL3A1) Homo sapiens This gene encodes the proalpha1 chains of type III collagen, a fibrillar collagen that is found in extensible connective tissues such as skin, lung, uterus, intestine and the vascular system,

**Background:** frequently in association with type I collagen. Mutations in this gene are associated

with Ehlers-Danlos syndrome types IV, and with aortic and arterial aneurysms. Two transcripts, resulting from the use of alternate polyadenylation signals, have been

identified for this gene.

Form: Liquid

**Buffer:** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

**Storage:** Store at -20°C. Avoid repeated freeze-thaw cycles.
