

Cat. No:	MAB-11004
Conjugate:	Unconjugated
Size:	100 ug
Clone:	Rat-401
Concentration:	1mg/ml
Host:	Ms
Isotype:	IgG1
Immunogen:	Nestin purified from embryonic rat spinal cord.
Reactivity:	Mouse, Rat
Applications:	Western Blot: 1:2,500 Immunocytochemistry: 1:250 Immunohistochemistry: 1:250, IF
Molecular Weight:	~240kDa
Purification:	Purified
Background:	The initial challenge was performed with a preparation of a segment of recombinant human Nestin expressed in bacteria and highly purified. The specific region was amino acids 317 to 630 of the human protein. This is a region which is 55% identical to rat Nestin and 57% identical to mouse Nestin.
Form:	Liquid
Buffer:	0.09% sodium azide
Storage:	Store liquid antibody at -20° C for long term storage, and refrigerated at 2-8°C for shorter term.
