

## **Product Data Sheet:** P16-INK4A Rabbit Polyclonal Antibody

Cat. No: AB-84778

Conjugate: Unconjugated

Size: 100 ug Clone: **POLY Concentration:** 1mg/ml Host: Rabbit Isotype: IqG

Immunogen: cyclin-dependent kinase inhibitor 2A(melanoma, p16, inhibits CDK4)

Reactivity: Human

Western Blot: 1:500-1:5000 Immunoprecipitation: 1:500-1:5000 **Applications:** 

Immunohistochemistry: 1:50-1:500 Immunofluorescence: 1:20-1:200

**Molecular Weight:** 16kDa

**Purification:** Immunogen affinity purified

ARF, CDKN2A, CDK4 inhibitor p16 INK4, CDK4 inhibitor p16INK4, CDKN2,

CDKN2A, CMM2, INK4, INK4a, MLM, MTS 1, MTS1, Multiple tumor suppressor 1, **Synonyms:** 

p14, p14ARF, P16, p16 INK4, p16 INK4a, p16INK4, p16INK4a, P19, TP16

CDKN2A generates several transcript variants which differ in their first exons. At least three alternatively-spliced variants encoding distinct proteins have been reported, and two are related, named p16-INK4 and p14 respetively, sharing 50%

**Background:** identity. The third one is completely stuctually un-related, called p14(ARF) or

p19(ARF). AB-84778 reacted with p16 specifically. P16 plays an important role in

regulating the cell cycle, and mutations in p16 increase the risk of

developing a variety of cancers, notably melanoma.

Form: Liquid

PBS with 0.02% sodium azide and 50% glycerol pH 7.3, **Buffer:** 

Storage: Store at -20°C for 12 months (Avoid repeated freeze / thaw cycles.)
