

## Product Data Sheet: PRDX3 Rabbit Polyclonal Antibody

**Cat. No:** AB-84440

Conjugate: Unconjugated

**IgG** 

Size: 100 ug

Clone: POLY

Concentration: 1mg/ml

Host: Rb

Isotype:

**Immunogen:**Recombinant fusion protein containing a sequence corresponding to amino acids

1-256 of human Peroxiredoxin 3 (PRDX3)

**Reactivity:** Hu, Ms, Rt

**Applications:** WB 1:500 - 1:2000 IHC 1:50 - 1:200 IF 1:50 - 1:200 ICC 1:50 - 1:200

**Molecular Weight:** 25kDa **Purification:** Aff. Pur.

**Synonyms:** PRDX3;AOP-1;AOP1;HBC189;MER5;PRO1748;SP-22;prx-III

This gene encodes a mitochondrial protein with antioxidant function. The protein is similar to the C22 subunit of Salmonella typhimurium alkylhydroperoxide reductase, and it can rescue bacterial resistance to alkylhydroperoxide in E. coli that lack the C22 subunit. The human and mouse genes are highly conserved, and they map to the regions syntenic between mouse and human chromosomes.

**Background:** Sequence comparisons with recently cloned mammalian homologs suggest that

these genes consist of a family that is responsible for the regulation of cellular proliferation, differentiation and antioxidant functions. This family member can protect cells from oxidative stress, and it can promote cell survival in prostate cancer. Alternative splicing of this gene results in multiple transcript variants. Related pseudogenes have been identified on chromosomes 1, 3, 13 and 22.

Form: Liquid

**Buffer:** PBS with 0.01% thiomersal,50% glycerol,pH7.3.

**Store** at -20°C. Avoid freeze / thaw cycles.

For Research use only IMMUNOLOGICAL SCIENCES
