

Product Data Sheet: PTEN Rabbit Polyclonal Antibody

Cat. No: AB-11725

Conjugate: Unconjugated

Size: 100 ug

Clone: POLY

Concentration: 1mg/ml

Host: Rabbit

Isotype: IgG

Immunogen: Synthesized peptide derived from PTEN at AA range: 251-300

Reactivity: Hu, Ms, Rt

Western Blot: 1:500-2000 Immunofluuorescence: 1:50-200

Applications: Immunohistochemistry(paraffin-embedded tissues): 100-300 ELISA

1:10000-20000

Molecular Weight: 50kD **Purification:** Aff. Pur.

Synonyms: phosphatase and tensin homolog; phosphatase and tensin homolog pseudogene

1

This gene was identified as a tumor suppressor that is mutated in a large number

of cancers at high frequency. The protein encoded by this gene is a

phosphatidylinositol-3,4,5-trisphosphate 3-phosphatase. It contains a tensin like domain as well as a catalytic domain similar to that of the dual specificity protein tyrosine phosphatases. Unlike most of the protein tyrosine phosphatases, this

Background: protein preferentially dephosphorylates phosphoinositide substrates. It negatively

regulates intracellular levels of phosphatidylinositol-3,4,5-trisphosphate in cells and functions as a tumor suppressor by negatively regulating AKT/PKB signaling pathway. The use of a non-canonical (CUG) upstream initiation site produces a longer isoform that initiates translation with a leucine, and is thought to be

preferentially associated with the mitochondrial inner membrane.

Form: Liquid

Buffer: Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Storage: Store at -20°C. Avoid repeated freeze-thaw cycles.
