

Product Data Sheet: TTF-1 Rabbit Polyclonal Antibody

Cat. No: AB-E15353
Conjugate: Unconjugated

Size: 100 ug

Clone: POLY

Concentration: 1mg/ml

Host: Rabbit

Isotype: IgG

Immunogen: The antiserum was produced against synthesized peptide derived from human

TTF-1. AA range:27-76.

Reactivity: Human; Mouse; Rat

Applications: Western Blot: 1/500 - 1/2000 ELISA: 1/10000

Molecular Weight: 38kDa

Purification: The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Synonyms: NKX2-1; NKX2A; TITF1; TTF1; Homeobox protein Nkx-2.1; Homeobox protein NK-2

homolog A; Thyroid nuclear factor 1; Thyroid transcription factor 1; TTF-1

This gene encodes a protein initially identified as a thyroid-specific transcription factor. The encoded protein binds to the thyroglobulin promoter and regulates the expression of thyroid-specific genes but has also been shown to regulate the expression of genes involved in morphogenesis. Mutations and deletions in this gene are associated with benign hereditary chorea, choreoathetosis, congenital

hypothyroidism, and neonatal respiratory distress, and may be associated with

thyroid cancer. Multiple transcript variants encoding different isoforms have been found for this gene. This gene shares the symbol/alias 'TTF1' with another gene,

transcription termination factor 1, which plays a role in ribosomal gene

transcription.

Form: Liquid

Buffer: Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Storage: Store at -20°C. Avoid repeated freeze-thaw cycles.
