| <b>Applications:</b>     | WB 1:500-1:1000,IHC 1:50-1:100,IP 1:10-1:20                                                                                                                                                                                                       |
| <b>Molecular Weight:</b> | Calculated MW: 39 kDa; Observed MW: 52,46,33 kDa                                                                                                                                                                                                  |
| <b>Purification:</b>     | Affinity Purification                                                                                                                                                                                                                             |
| <b>Form:</b>             | Liquid                                                                                                                                                                                                                                            |
| <b>Buffer:</b>           | Purified antibody in TBS with 0.05% sodium azide,0.05%BSA and 50% glycerol.                                                                                                                                                                       |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                      |
| <b>Background:</b>       | Inhibits the chaperone activity of HSP70/HSC70 by promoting substrate release.Inhibits the pro-apoptotic function of PPP1R15A,and has anti-apoptotic activity.Markedly increases the anti-cell death function of BCL2 induced by various stimuli. |
