| <b>Form:</b>             | Liquid                                                                                                                                                                                                                                                |
| <b>Buffer:</b>           | Purified antibody in TBS with 0.05% sodium azide,0.05%BSA and 50% glycerol.                                                                                                                                                                           |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                          |
| <b>Background:</b>       | FLI1 Sequence-specific transcriptional activator. Recognizes the DNA sequence 5'-C[CA]GGAAGT-3'. Belongs to the ETS family. Can form homodimers or heterodimers with ETV6/TEL1. 2 isoforms of the human protein are produced by alternative splicing. |
