| <b>Buffer:</b>           | Purified antibody in PBS with 0.05% sodium azide.                                                                                                                                                                                                                                                                                                  |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                                                                                                                       |
| <b>Background:</b>       | DBC1 (deleted in breast cancer 1) is a novel transcriptional coactivator that has been suggested to be a critical regulator of tumorigenesis. It has been reported to be strongly related with unfavorable clinical outcome in several cancers, including breast and gastric cancer, and the protein is a key regulator of SIRT1 activity in vivo. |
