| <b>Product name:</b>     | KRT9 Mouse Monoclonal Antibody                                                                                                                                                                                            |
| <b>Cat number:</b>       | MABN82645                                                                                                                                                                                                                 |
| <b>Conjugate:</b>        | Unconjugated                                                                                                                                                                                                              |
| <b>Size:</b>             | 100µL                                                                                                                                                                                                                     |
| <b>Clone:</b>            | Monoclonal                                                                                                                                                                                                                |
| <b>Concentration:</b>    | 1mg/ml                                                                                                                                                                                                                    |
| <b>Host:</b>             | Mouse                                                                                                                                                                                                                     |
| <b>Isotype:</b>          | Mouse IgG2b                                                                                                                                                                                                               |
| <b>Immunogen:</b>        | Purified recombinant fragment of human KRT9 (AA: 153-460) expressed in E. Coli.                                                                                                                                           |
| <b>Reactivity:</b>       | Human, Monkey                                                                                                                                                                                                             |
| <b>Applications:</b>     | WB 1:500-1:2000,ELISA 1:5000-1:20000,FC 1:200-1:400                                                                                                                                                                       |
| <b>Molecular Weight:</b> | 62kDa                                                                                                                                                                                                                     |
| <b>Purification:</b>     | Affinity Purification                                                                                                                                                                                                     |
| <b>Form:</b>             | Liquid                                                                                                                                                                                                                    |
| <b>Buffer:</b>           | Purified antibody in PBS with 0.05% sodium azide                                                                                                                                                                          |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                              |
| <b>Background:</b>       | This gene encodes the type I keratin 9, an intermediate filament chain expressed only in the terminally differentiated epidermis of palms and soles. Mutations in this gene cause epidermolytic palmoplantar keratoderma. |
