| <b>Isotype:</b>       | IgG1                                                                                                                                                                                                                                                           |
| <b>Immunogen:</b>     | A synthetic peptide of human BNP                                                                                                                                                                                                                               |
| <b>Reactivity:</b>    | Human                                                                                                                                                                                                                                                          |
| <b>Applications:</b>  | ELISA 1:5000-1:20000                                                                                                                                                                                                                                           |
| <b>Purification:</b>  | Affinity Purification                                                                                                                                                                                                                                          |
| <b>Form:</b>          | Liquid                                                                                                                                                                                                                                                         |
| <b>Buffer:</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide, pH 7.3.                                                                                                                                                                                |
| <b>Storage:</b>       | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                                   |
| <b>Background:</b>    | Brain natriuretic peptide (BNP) circulates in blood as a peptide hormone with natriuretic, vasodilatory and renin inhibitory properties. BNP is secreted predominantly by the left ventricular myocytes in response to volume expansion and pressure overload. |
