| <b>Applications:</b>     | WB 1:500-1:1000                                                                                                                                                                                                                                    |
| <b>Molecular Weight:</b> | Calculated MW: 83 kDa; Observed MW: 95 kDa                                                                                                                                                                                                         |
| <b>Purification:</b>     | Affinity Chromatography                                                                                                                                                                                                                            |
| <b>Form:</b>             | Liquid                                                                                                                                                                                                                                             |
| <b>Buffer:</b>           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                                                                                                 |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                       |
| <b>Background:</b>       | Plays a critical role in embryonic development and functions as a key regulatory protein in neurogenesis and the development of the heart, eye lens, liver, pancreas and the lymphatic system. Involved in the regulation of the circadian rhythm. |
