|--------------------------|----------------------------------------------------------------------------------------------------|
| <b>Product name:</b>     | Rad54 Rabbit Polyclonal Antibody                                                                   |
| <b>Cat number:</b>       | ABN16849                                                                                           |
| <b>Conjugate:</b>        | Unconjugated                                                                                       |
| <b>Size:</b>             | 100µL                                                                                              |
| <b>Clone:</b>            | Polyclonal                                                                                         |
| <b>Concentration:</b>    | 1mg/ml                                                                                             |
| <b>Host:</b>             | Rabbit                                                                                             |
| <b>Isotype:</b>          | IgG                                                                                                |
| <b>Immunogen:</b>        | The antiserum was produced against synthesized peptide derived from human RAD54L. AA range:221-270 |
| <b>Reactivity:</b>       | Human,Mouse                                                                                        |
| <b>Applications:</b>     | WB 1:500-1:2000,IHC 1:100-1:300,ICC/IF 1:200-1:1000,ELISA 1:5000-1:10000                           |
| <b>Molecular Weight:</b> | 85kDa                                                                                              |
| <b>Purification:</b>     | Affinity purification                                                                              |
| <b>Form:</b>             | Liquid                                                                                             |
| <b>Buffer:</b>           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.                 |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.       |

**Background:**

The protein encoded by this gene belongs to the DEAD-like helicase superfamily, and shares similarity with *Saccharomyces cerevisiae* Rad54, a protein known to be involved in the homologous recombination and repair of DNA. This protein has been shown to play a role in homologous recombination related repair of DNA double-strand breaks. The binding of this protein to double-strand DNA induces a DNA topological change, which is thought to facilitate homologous DNA pairing, and stimulate DNA recombination. Alternative splicing results in multiple transcript variants encoding the same protein.[provided by RefSeq, Dec 2008],disease:Defects in RAD54L may be a cause of tumor formation. Although alterations are found in a small fraction of primary tumors, these findings provide new insight into genetic instability underlying carcinogenesis.,function:Involved in DNA repair and mitotic recombination. Functions in the recombinational DNA repair (RAD52) pathway. Dissociates RAD51 from nucleoprotein filaments formed on dsDNA. Could be involved in the turnover of RAD51 protein-dsDNA filaments (By similarity). May play also an essential role in telomere length maintenance and telomere capping in mammalian cells.,induction:Expression increases approximately 3-fold in late G1 phase compared to other phases of the cell cycle.,similarity:Belongs to the SNF2/RAD54 helicase family.,similarity:Contains 1 helicase ATP-binding domain.,similarity:Contains 1 helicase C-terminal domain.,subunit:Interacts with RAD51 through the NH2-terminal domain.,
