

Product name:	Ribosomal Protein L10L Rabbit Polyclonal Antibody
Cat number:	ABN17144
Conjugate:	Unconjugated
Size:	100µL
Clone:	Polyclonal
Concentration:	1mg/ml
Host:	Rabbit
Isotype:	IgG
Immunogen:	The antiserum was produced against synthesized peptide derived from human RPL10L. AA range:151-200
Reactivity:	Human,Monkey
Applications:	WB 1:500-1:2000,IHC 1:100-1:300,ICC/IF 1:50-1:200,ELISA 1:5000-1:20000
Molecular Weight:	20kDa
Purification:	Affinity purification
Form:	Liquid
Buffer:	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.
Storage:	Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.
Background:	This gene encodes a protein sharing sequence similarity with ribosomal protein L10. It is not currently known whether the encoded protein is a functional ribosomal protein or whether it has evolved a function that is independent of the ribosome. This gene is intronless. [provided by RefSeq, Jul 2008],function:May play a role in compensating for the inactivated X-linked gene during spermatogenesis.,miscellaneous:This gene has no introns in its coding regions, and therefore was most likely produced by retrotransposition of the original X-linked gene during evolution.,similarity:Belongs to the ribosomal protein L10e family.,tissue specificity:Testis specific.,
