| <b>Buffer:</b>           | Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.                                                                                                                                                                                                                                                                                                                                                      |
| <b>Storage:</b>          | Store at 4°C short term. Aliquot and store at -20°C for 12 months. Avoid freeze/thaw cycles.                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Background:</b>       | <p>Predicted to enable identical protein binding activity. Located in cytoplasm and extracellular region. Is expressed in several structures, including lung and main bronchus epithelium. Used to study desquamative interstitial pneumonia.</p> <p>Human ortholog(s) of this gene implicated in asthma; lung disease (multiple); and respiratory syncytial virus infectious disease. Orthologous to human SFTPC (surfactant protein C). [provided by Alliance of Genome Resources, Apr 2022]</p> |
