

## HUMAN RECOMBINANT PROTEINS

| CatalogNo  | Description                                         | Species | 10 UG<br>€ PRICE | 20UG<br>€ PRICE | 50 UG<br>€ PRICE | 100 UG<br>€ PRICE |
|------------|-----------------------------------------------------|---------|------------------|-----------------|------------------|-------------------|
| GRF01094   | Human Activin RIIA/ACVR2A Protein                   | Human   | 150              | -               | 445              | -                 |
| GRF00153   | Human Activin RIIIB/ACVR2B Protein                  | Human   | 85               | 120             | 215              | 335               |
| GRF00978   | Human ALK-1/ACVRL1 Protein                          | Human   | 60               | 100             | 180              | 290               |
| GRF00074   | Human ALK-4/ACVR1B Protein                          | Human   | -                | 75              | 145              | 235               |
| GRF00256   | Human ALK-7/ACVR1C Protein                          | Human   | 85               | 120             | 215              | 335               |
| GRF00898   | Human Amphiregulin/AREG Protein                     | Human   | 150              | -               | 445              | -                 |
| GRF01828   | Human Angiopoietin-1/ANG-1/ANGPT1(277-498) Protein  | Human   | 120              | 180             | 300              | 475               |
| GRF02008   | Human Angiopoietin-2/ANG-2/ANGPT2(275-496) Protein  | Human   | 105              | 165             | 300              | 475               |
| GRF01773   | Human Angiopoietin-4/ANG-4/ANGPT4(23-503) Protein   | Human   | 145              | 210             | 420              | 665               |
| GRF01024   | Human Angiopoietin-like 3/ANGPTL3(17-220) Protein   | Human   | -                | 120             | 215              | 335               |
| GRF02866   | Human Angiopoietin-like 3/ANGPTL3(17-460) Protein   | Human   | 105              | 165             | 300              | 475               |
| GRF02179   | Human Angiopoietin-like 4/ANGPTL4(166-406) Protein  | Human   | 120              | 180             | 300              | 475               |
| GRF02831   | Human Angiopoietin-like 8/ANGPTL8 (22-198) Protein  | Human   | 215              | -               | 625              | -                 |
| GRF10137LQ | Human Atrophin-1 interacting protein 4/ITCH protein | Human   | -                | -               | 595              | -                 |
| GRF01779   | Human BCE1/PS2/TFF1 Protein                         | Human   | 100              | 150             | 300              | 475               |
| GRF01700   | Human Betacellulin/BTC Protein                      | Human   | 120              | 180             | 300              | 475               |
| GRF01792   | Human Beta-nerve growth factor/NGFB Protein         | Human   | 75               | 105             | 145              | 235               |
| GRF00156   | Human BMPR-1A/ALK-3/CD292 Protein                   | Human   | 60               | 100             | 180              | 290               |
| GRF01222   | Human BMPR-1B/ALK-6/CDw293 Protein                  | Human   | 85               | 120             | 215              | 335               |
| GRF01418   | Human BMPR-2 Protein                                | Human   | 85               | 120             | 215              | 335               |
| GRF01420   | Human BMPR-2 Protein                                | Human   | 85               | 120             | 215              | 335               |
| GRF00703   | Human Brain Natriuretic Peptide/NT-proBNP Protein   | Human   | 125              | 180             | 300              | 475               |
| GRF01728   | Human Calcitonin/CALCA Protein                      | Human   | 120              | 180             | 300              | 475               |
| GRF01613   | Human CCL1/I-309 Protein                            | Human   | 105              | 165             | 270              | -                 |
| GRF01635   | Human CCL11/Eotaxin Protein                         | Human   | 100              | 145             | 215              | 360               |
| GRF01614   | Human CCL13/MCP-4 Protein                           | Human   | 105              | 165             | 270              | 380               |
| GRF01940   | Human CCL14/HCC-1/HCC-3 Protein                     | Human   | -                | 180             | 300              | 475               |
| GRF01985   | Human CCL14/HCC-1/HCC-3(28-93) Protein              | Human   | 120              | 180             | 300              | -                 |
| GRF01966   | Human CCL15/MIP-5/HCC-2 Protein                     | Human   | 120              | 180             | 300              | 475               |
| GRF00315   | Human CCL17/TARC Protein                            | Human   | 95               | 180             | 270              | 475               |
| GRF01374   | Human CCL17/TARC Protein                            | Human   | -                | -               | 215              | 360               |
| GRF02962   | Human CCL18/PARC Protein                            | Human   | 105              | 130             | 260              | -                 |
| GRF01832   | Human CCL19/MIP-3 beta Protein                      | Human   | 165              | 235             | 420              | 665               |

## HUMAN RECOMBINANT PROTEINS
