

Product name:	Recombinant I κ B- α Monoclonal Antibody
Cat number:	MAB300686
Conjugate:	Unconjugated
Size:	100 μ L
Clone:	L35A5
Concentration:	1 mg/mL
Host:	Rabbit
Isotype:	IgG, κ
Immunogen:	Recombinant Human I κ B- α protein
Reactivity:	Human;Mouse;Rat
Applications:	WB 1:2000-1:10000
Molecular Weight:	36 kDa
Purification:	Protein A
Buffer:	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.
Storage:	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Background:	<p>This gene encodes a member of the NF-kappa-B inhibitor family, which contain multiple ankrin repeat domains. The encoded protein interacts with REL dimers to inhibit NF-kappa-B/REL complexes which are involved in inflammatory responses. The encoded protein moves between the cytoplasm and the nucleus via a nuclear localization signal and CRM1-mediated nuclear export. Mutations in this gene have been found in ectodermal dysplasia anhidrotic with T-cell immunodeficiency autosomal dominant disease.</p>
